Special Interests

I have had a long and thorough training within the health service in generalised obstetrics and gynaecology. I have always had a great love of obstetrics and I do like to scan my own patients. I deliver all of my obstetric patients at The Portland Hospital.

I do all of my own gynaecological scans. I perform many colposcopies and I have an interest in uro-gynaecology and laparoscopic surgery. I also undertake infertility investigation and use ovarian stimulation technology and artificial insemination as part of my practice. I perform my surgery at The Portland Hospital.

Leisure Interests

Obstetrics and gynaecology has hindered my golf swing considerably but my present handicap is 7. In addition I love tennis, socialising and eating out.

I am married and I have three daughters.
